

TRIC Tools, Inc.

1350 S. Loop Rd., #104
Alameda, California 94502
United States

Phone: (510) 865-8742
Fax: (510) 217-9493

Located in Alameda, California, TRIC Tools, Inc. specializes in trenchless replacement of underground utilities, from residential water lines to municipal sewer mains. Their patented method and field-tested products offer simple and practical solutions to both common and uncommon pipe-bursting projects. TRIC's technologies minimize the requirement for surface excavation and significantly reduce the environmental impacts of underground utility service installation, maintenance, and repair. TRIC is continually improving its products and actively testing them in the field. Hundreds of customers all over America and around the world contact them to share projects and to receive consultation and technical support. A product lines page, a complete list of distributors worldwide, technical support & knowledge base section, and a customer testimonials page can be found on the company's website.
