Lansas Products, manufactured by Vanderlans & Sons, Inc., offers a complete line of test plugs and flow-thru plugs in single and multi sizes. Also available are joint testers, high-pressure plugs and air, and vacuum testing equipment. All its products are manufactured in its facilities, under rigid quality control, and tested before shipping. The unique Lansas line of pipe plugs offer more plugging and bypassing options than any other manufacturer today. Lansas Products services the United States from four strategically located distribution centers. The Lansas Corporate office is located in Lodi, CA and includes our Manufacturing Facilities and the Main Distribution Warehouse. We also have three additional Regional Factory Warehouses in Atlanta, GA, Chicago, IL (Midwest) and now open in Houston, TX.
