

Directional Technologies, Inc

177 N. Plains Industrial Rd.
Wallingford, Connecticut 06492
United States

Phone: (877) 788-4479

Directional Technologies specializes in Horizontal Directional Drilling (HDD) and implementing remediation technologies with horizontal wells. The company is among a handful of horizontal directional drilling contractors in the world experienced in using horizontal directional drilling technology to install Horizontal Remediation Wells for environmental remediation applications. The firm also offers planning and preliminary consulting to engineers and site managers as they assess the technical appropriateness of horizontal wells. Directional Technologies, Inc. has been advancing the environmental and utility industry since 1992.
