For 50 yrs Lanzo Companies have successfully met the most challenging requirements for tough infrastructure work while being a leader in Civil Construction. Lanzo Companies is a family-owned group of businesses consisting of Lanzo Holdings, Lanzo Construction, and Lanzo Trenchless Technologies along with Lanzo Lining International, Lanzo Materials & Supplies, and Lanzo MRC Manufacturing. The Company is among North America's most reputable firms for civil construction, construction management, structural and plant construction, and trenchless technologies. Lanzo Trenchless Technologies provides a faster, cost-effective, less invasive alternative to replacing failing underground infrastructure. To date, Lanzo Trenchless Technologies has installed more than 10,000,000 linear feet of sanitary sewer, force main, storm drain, NSF 61 potable water transmission, large diameter and non-circular CIPP applications throughout North America.
