

LightStream, LP

1222 Innovative Drive
San Diego, California 92154
United States

Phone: (619) 671-0445

LightStream, LP offers a superior fiberglass cured in place pipe lining, a compact, computerized UV curing system, training and support. Their CIPP liners and parts for their StreamLiner UV™ Light Train cured in place pipe system are all readily available; no long down times waiting for shipments from Europe. StreamLiner UV™ cured in place pipe liner exceeds the strength and curing speed of any of the competing products.
