Fax: (847) 955-0055

Universal HDD manufactures custom horizontal directional drills. They work closely with every client in designing each horizontal directional drill. Every rig is different in design. Each design is tailored according to your needs, preferences, desires and budget. Long years of experience and craftsmanship of their staff, allows them to upgrade and make any modifications to your rig no matter if it is still in production stage, or you have been drilling with it for years.
