Direct Horizontal Drilling is a Canadian horizontal directional drilling contractor headquartered in Acheson, Canada. Its custom-built rigs provide customers efficiency in horizontal drilling and are considered by customers to be the best high-tech rig in the industry today. Direct's drilling fleet includes its "Maxi Series" rigs and "Light Rig Series" Both are well-known to customers for offering safe, efficient drilling operations, rapid rig up, and high mobility. All "Maxi Series" rigs in Direct Horizontal's fleet are high-performance drilling rigs well suited for operating in extreme weather conditions. Direct Horizontal's manufacturing team emphasizes matching power with efficiency. Every unit has high-volume pumps and mud management systems far beyond industry standards. The company operates from coast to coast, with field locations throughout Western Canada. Direct Horizontal equipment and crews have extensive experience operating in extreme weather conditions. Their expertise, technology, and equipment enable them to tackle Canada's climate and geology.
