Zanesville, Ohio 43701
United States

Phone: (740) 297-4058

ClearPath Utility Solutions, LLC is a horizontal directional drilling contractor offering HDD services for the utility and environmental industry. ClearPath Utility Solutions handles many directional boring projects, from solid rock bores to large-scale boring jobs to smaller residential projects. Their experienced professional staff is fully trained, efficient, and safety conscious. The company was founded in 2007, and its founders have been focused on the HDD industry since 1996. Headquartered in Zanesville, Ohio, ClearPath Utility Solutions primarily serves markets in the Midwest and Eastern portions of the United States. More information about the company's history, trenchless services, and an impressive list of completed projects can be found on its website.
