12235 New Berlin Rd
Jacksonville, Florida 32226
United States

Phone: (904) 764-6887
Fax: (904).379.6193

Murphy Pipeline Contractors is a trenchless utility contractor specializing in water and sewer pipeline replacement. The company uses methods that are less intrusive to the community during construction, expedite project schedules, and save tax dollars by reducing overall project costs. Compression Fit HDPE pipe lining technology uses a new HDPE pipe that will be a 'compressive fit' inside the existing host pipe. This offers remarkable value over other construction methods. Murphy Pipeline Contractors' primary focus is Pre-chlorinated pipe bursting, Sliplining, Compression Fit HDPE pipe lining (Swagelining), and helping cities add value to their water and sewer pipeline replacement work. Their parent organization is Inland Pipe Rehabilitation LLC. Murphy Pipelines has received numerous awards for its millions of feet of static pipe bursting, sliplining, and Compression Fit HDPE pipe lining experience.
