

Masterliner Inc.

42305 South Airport Road
Hammond, Louisiana 70403
United States

Phone: (888) 344-3733

Masterliner Inc., based in Hammond, Louisiana, manufactures cured-in-place (CIPP) pipe rehabilitation products, available in custom pipe diameters, wall thickness, and pipe sizes. The company is one of the first manufacturers of cured-in-place-pipe liners in the United States, dedicated to trenchless technology, and is always looking to improve and provide additional products to helping your business succeed in this competitive marketplace. With its Cured In Place Pipeline Rehabilitation System, Masterliner Inc. can transform a problem pipe into a new, robust, and leakproof system in a matter of hours.
