Fax: (936) 441-9082

ECI Drilling International, LLC is a leading horizontal directional drilling contractor headquartered in Conroe, Texas. The company provides clients an alternative to conventional methods of placing product lines under streams, rivers, lakes, marshes, wetlands, beaches, estuaries, highways, railways, runways, dunes, protected habitats, and other sensitive areas. ECI imposes high-quality standards on underground construction activities to leave the least possible impact on our natural resources and environment. Using a combination of innovation, creativity, state of the art tooling, dedicated personnel, and high-quality materials ECI has developed a solid reputation as a horizontal directional drilling industry leader among its competitors and clientele.
