Laney Directional Drilling Co. (Laney) is a leading global trenchless technology contracting firm headquartered in Spring, Texas. The company is widely recognized as one of the most experienced and capable horizontal directional drilling providers for large diameter pipelines as well as the leading Direct Pipe® contractor in North America having completed a world record Direct Pipe® installation in Brownsville, Texas in January 2018. Laney is North America's premier independent trenchless construction and engineering firm with over 30 years' experience serving the oil, gas, power, telecommunications, water, sewer, wind, desalinization and mining industries. Over its history, Laney has operated on five different continents and is strategically reestablishing its footprint across the globe. The company continues to expand its share of the turnkey engineering, procurement, and construction market while continually focusing on improving trenchless construction methods and technology.
