

Pipe Bursting of New England, Inc.

41 Ledin Drive
Avon, Massachusetts 02322
United States

Phone: (508) 559-9898
Fax: (508) 559-6432

An underground utility contracting organization specialized in pipe bursting method for trenchless installation of underground utilities, serving New England since 1987. Pipe Bursting of New England provides the combination of dedicated leadership, experience, and specialized pipe bursting equipment that you need to ensure that your projects are delivered with quality results, cost-effectively, and with minimal risk. Pipe bursting is a method of replacing a pipe by fracturing or splitting the existing pipe from within, expanding the broken pipe into the surrounding soil, and simultaneously pulling in a same or larger size new pipe. A division of D'Allessandro Corp.
