HammerHead Trenchless Equipment, headquartered in Lake Mills, WI, designs and manufactures piercing tools, bursting systems, pneumatic hammers, and horizontal directional drill tooling. HammerHead® Trenchless, a division of The Toro Company, manufactures and delivers a unique combination of rehabilitation, replacement, installation equipment, and consumables for the underground construction market. Besides being a complete solutions provider in rehabilitation and replacement, HammerHead offers its customers worldwide unmatched field support and project consultation. HammerHead products are proudly made in the U.S.A. and sold and serviced in over 60 countries. Contractors around the globe use the HammerHead® piercing, bursting, and ramming products to install or replace fiber, communication, water, sewer, and gas lines with minimal disruption to above-ground landscapes, structures, and traffic flow. The company is part of the Charles Machine Works family of companies. 100% privately held by the founding family and more than 1,400 employees worldwide, Charles Machine Works represents the best of both worlds: a strong company anchored with deep roots and a workforce equipped for the future. Hammerhead products are recognized throughout the industry as one of the market's most reliable and productive trenchless tools.
