Trenchless Australasia is the official publication of the Australasian Society for Trenchless Technology (ASTT). It is published quarterly and includes features, project stories, and other industry news. This publication includes articles, news, and features on the trenchless industry in Australia, New Zealand, and Southeast Asia. And is also available via interactive digital editions tailored for viewing on computer, tablet, or mobile devices. Trenchless Australasia is published by Great Southern Press on behalf of the Australasian Society for Trenchless Technology. Great Southern Press was formed in 1972 and is a specialist industry publisher providing printed and online information covering infrastructure, construction, minerals, and energy in Australia and across Asia.
