LiquiForce is a leading trenchless pipe rehabilitation company headquartered in Kingsville, Ontario. LiquiForce's unique, green pipeline rehabilitation systems provide new pipe standards and durability (50-100 years) for pipes 10 centimeters (4 inches) to 6 meters (20 feet) in diameter. Their state-of-the-art pipeline rehabilitation process significantly reduces pipeline repair time with minimal disruption and decreases repair costs. From the point of distribution to user, and back to collection and treatment facilities LiquiForce is a one-stop no-dig, pipeline service provider offering complete pipeline system inspection, assessment, rehabilitation and maintenance.
