

Matrix Drilling Products

1661 Old Belfast Road
Lewisburg, Tennessee 37091
United States

Phone: (931) 359 - 6564

Matrix Drilling Products engineers and manufactures drill rods with facilities close to your operation. Strategically positioned on the U.S.'s East and West coasts. Located an hour south of Nashville, Tennessee, Matrix's main facility boasts over 50,000 sq. ft. of advanced manufacturing floor space and full engineering capabilities.

Similarly, Matrix's western outpost, located in the southeastern portion of Idaho, offers full machining functionality and manufacturing. Matrix drill rods and in-hole tools are made in the U.S.A. and have proven reliable and economical worldwide. Its dual tube explores for and quantifies mineral reserves and produces water wells and dewatering holes. Family-owned for two generations, a passion for service and a steady allegiance to quality care in the Matrix DNA. Partnering with its clients to solve problems in the field has shaped everything about how Matrix does business.
